SKILLS

Java | DSA | MERN | Python | n8n | Agentic AI | Supabase (PostgreSQL) | Next.js | JavaScript | MongoDB | Machine Learning

POSITIONS OF RESPONSIBILITY

Up N Running | AI Software Company | Founder | upnrunning.in *Jul '25 - Present*

- Scaled from zero to Rs. 50,000/month in MRR within 6 months, personally owning every function: outreach, branding, sales, delivery, and support, with zero external hires.
- Delivered production-grade AI automation systems to 3 clients across Instagram growth, personal branding, and a foreign startup, each retaining engagement post-delivery.
- Shipped full-cycle solutions that reduced client operational load, establishing Up N Running as a repeatable, capable delivery machine from day one.

BunkToBrains | Ed-Tech Startup | Co-Founder | bunktobrains.com *May '25 - Present*

- Grew the platform to 7,000+ students and Rs. 2,00,000 in revenue in the first 6 months, with the second lakh crossed in the following quarter.
- Scaled a team of 25+ members including external instructors and developers, while personally overseeing all technical architecture and critical build decisions.
- Launched the Skills department offering recorded courses via external instructors, a vertical projected to grow at 2x the current rate and become the platform's primary revenue driver.

Career Development Cell, VIPS TC | Vice President *Jan '25 - Present*

- Ran as second-in-command across all CDC operations, ensuring placement drives, workshops, and inter-college events reached 1,000+ students without disruption.
- Led career events from planning to execution, resulting in stronger industry partnerships and measurably higher student participation each cycle.
- Owned and maintained the CDC website end-to-end, making it the single reliable source for placement info and opportunities across the department.

PROJECTS

Socioverse SaaS | socioverse.io | AI Content Automation and Growth Platform *Dec '25*

- **Emotional DNA Engine:** Uses Google Gemini to deconstruct psychological mechanisms of viral content, not just surface-level text.
- **Smart Follow Gate:** Verifies follower status before delivering assets, lifting follower conversion by 30 to 50%.
- **Lead Magnet Machine:** Auto-renders professional branded PDF guides from raw content ideas.
- **Stack:** React 18, TypeScript, Supabase (Edge Functions + Auth), Gemini 2.0 Flash, Bunny.net.

Up N Running | upnrunning.in | AI automations helping businesses work less and achieve more *Jul '25*

- **ALVEEK SaaS:** Appointment reminder system (SMS, WhatsApp, Email) reducing clinic patient no-shows with auto-confirm and rescheduling workflows. Stack: n8n, WaSendarAPI, Twilio.
- **OTO Engine:** Full-cycle client acquisition suite covering lead gen, personalized outreach, proposal creation, and onboarding. Stack: n8n, Apollo.io, LinkedIn Automation, GPT-5.

BunkToBrains | bunktobrains.com | Ed-Tech platform for exam prep and student community *Feb '25*

- E-commerce platform for notes and courses with academic result integration, leaderboard, and payment gateway.
- **Stealth PDF Engine:** Streams encrypted content to browser memory via Bunny Storage, eliminating piracy and scraping.
- **Stack:** Next.js, MongoDB, Razorpay, Bunny.net

EDUCATION

Vivekananda Institute of Professional Studies | B.Tech, AIML *2023 - 2027 (expected)*

Arwachin International School | CBSE Class XII | Aggregate: 94% *2021 – 2023*
